

Mid-South Managers Meeting 2025

- I just want to say how much we enjoy coming to this meeting and getting to see everyone here.
- I know many of you are already familiar with us and what we do, but for those of you that are not, we develop and support a computer system.
- We have been and continue to be an industry leader in farm cooperates and independent feed stores in Arkansas, Missouri, Mississippi, Louisiana and Oklahoma.
- We have built our business on meeting the needs of our clients (built for coops) and our software is continuously being enhanced to meet the changing fiscal and regulatory environment.
- Financial reporting and inventory control are critical to any business. Our software was designed with the input of CPAs and auditors who specialize in farm stores.
- All of our software modules are fully integrated with one another and with the financial reporting system.
 - Sub-ledgers are continuously audited for integrity.
 - Inventory can be counted on a rotating basis, even when the store is open.
 - Custom Mix & Fertilizer modules
 - Patronage Equity and Stockholder modules
 - K&K and Orgill downloads
- We aim to serve every aspect of your business, from the sales counter, to the back office.
- Customer support is critical to any business. We offer unlimited phone support, off-site data backups. We listen to our customers for new feature suggestions.
- Questions?
- Thank you!

It's a pleasure to be here and see familiar faces, as always.

About Us

While many of you may already know us, for those who don't, we develop and support a comprehensive computer system designed specifically for farm cooperatives. We've been, and continue to be, an **industry leader** in farm cooperatives and independent feed stores across in six states.

What We Offer

Our business is built on meeting the unique needs of our clients. Our software is continuously enhanced to help you navigate the ever-changing fiscal and regulatory environment.

We understand that **financial reporting and inventory control are critical** to any business. That's why our software was designed with direct input from CPAs and auditors specializing in farm stores. All of our software modules are fully integrated with each other and with the financial reporting system, ensuring seamless operations.

Key features include:

- **Continuous auditing** of sub-ledgers for data integrity.
- **Rotating inventory counts** that can be performed even while your store is open.
- **Custom Mix Feed & Fertilizer system**
- **Patronage Equity & Stockholder modules**
- Support for **K&K and Orgill downloads**.

From the sales counter to the back office, we aim to serve every aspect of your business.

Unmatched Customer Support

We believe **customer support is paramount**. That's why we offer unlimited phone support and off-site data backups. We also actively listen to our customers, incorporating your suggestions for new features to ensure our system evolves with your needs.

Thank you!
